Reasons for Allowance

Claims 19-38 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Sample et al., taken alone or in combination of other references, does not teach or fairly suggest a circuit comprising, among other things, a first input register, a first output register, a second output register, and a multiplexer having a first input connected to the output of the first output register, a second input connected to the output of the second output register, an address input configurable to receive the output clock signal, and an output connectable to the second I/O terminal (claims 19 and 23); and an output enable block circuit for receiving an enable signal from the logic array and providing an output enable signal to a gating input of the gated output buffer (claim 27), as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
